

Trevino Trails Horseshoe Hollow Country Club

To the slicer this hole is an architectural masterpiece. On the other hand, to the hooker it is a sadistical nightmare. Usually they take one look and storm off in disgust. This is Lee's favorite. No wonder, it plays clockwise and is conducive for setting up the famous Trevino fade. Many of double-eagle two's have been registered here, and all by the master himself. On this course all carts steer only to the right. Right to left hitters are requested to take guides, although not mandatory. Personally signed by the artist. Overall size ca. 18" x 24" (ca. 45 cm x 61 cm)
